**Re: EB-06-TC-060 and EB Docket No. 06-36
CPNI Compliance Certification
Ontario Telephone Company**

Dear Ms. Dortch:

This filing is intended to respond to the Commission's directive to file on or before February 6, 2006, Ontario Telephone Company ("Company") Customer Proprietary Network Information ("CPNI") Compliance Certification.

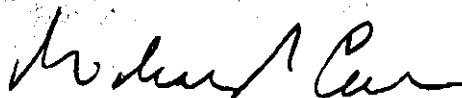

It is our policy to protect the confidential CPNI of our customers, other telecommunications carriers, and equipment manufacturers and we believe, in good faith, that our efforts have advanced this underlying objective. Company personnel who interface with customers are trained on the appropriate use of CPNI. Prior to discussing related telecommunication services of our affiliate, customers are queried as to whether we may use their account information to better evaluate potential service offerings. Customer responses are recorded on the Customer Account Record as documentation and for future reference.

When responding to the Commission's recent Public Notice, DA 06-223 (Jan. 30, 2006), the Company undertook an internal review of its procedures to protect a customer's CPNI in conformance with FCC requirements. As a result of this review we are confident that we have adequate procedures and practices in place to protect a customer's CPNI. However, this review also highlighted some deficiencies in our current practices related to recordkeeping and conducting formal annual reviews of our CPNI practices to ensure continued compliance. Accordingly, erring on the side of caution, the Company submits the attached Certification. In this Certification, the Company, in good faith, attests that the Company is undertaking current actions to ensure compliance.

We note at this point that the Company takes seriously its obligation to protect the confidential nature of its CPNI. We are unaware of any activities on our part that are connected at all with the recently publicized "brokering" activities that would implicate, contemplate, or otherwise compromise the confidentiality of our customers' CPNI.

Please contact me if you have any questions or require additional information.

Respectfully submitted,

Michael T. Carr
Chief Financial Officer

CERTIFICATION

I, Michael T. Carr, Chief Financial Officer of Ontario Telephone Company (the "Company") does hereby declare under penalties of perjury that I am an officer of the Company and that the Company adheres to the FCC rules regarding the protection of CPNI and the rules pertaining to the appropriate interface with customers on seeking approvals for the use of their CPNI. However, the Company has identified deficiencies in its recordkeeping and annual review procedures and will take immediate remedial actions to correct this. This information is true and accurate to the best of my knowledge, information, and belief.

Ontario Telephone Company

STATEMENT OF COMPANY POLICY

When referred to in the guidelines set forth below, "Company," "we," or "us" refers to and includes all employees, associates, and agents of Ontario Telephone Company.

Ontario Telephone Company (the "Company") has a duty to protect the confidential, Customer Proprietary Network Information ("CPNI") of our customers, other telecommunications carriers, and equipment manufacturers. Therefore, the following guidelines shall be followed by all employees and agents of the Company:

CPNI is any information that relates to the quantity, technical configuration, type, destination, and amount of use of a telecommunications service subscribed to by any customer of a telecommunications carrier, and that is made available to the carrier by the customer solely by virtue of the carrier-customer relationship. CPNI also includes information contained in the bills pertaining to the telephone exchange service or telephone toll service received by a customer of a carrier.

- Proprietary information of our customers, other telecommunications carriers, and equipment manufacturers is protected by Federal law.
- CPNI which the Company obtains from another carrier for the purpose of providing a particular telecommunications service may be used only for the provision of that service, and may not be used for any otherwise unrelated marketing efforts.
- Individually identifiable CPNI that we obtain by providing a telecommunications service may be used, disclosed, or released *only* in the circumstances as set forth in the Company's CPNI Operating Guidelines.

The release of any CPNI by sales personnel must be authorized by a supervisor.

The Company takes seriously the protection of our customers' CPNI, and in accordance with 47 CFR 64.2009 will be subject to disciplinary review for violation of the policies set forth above. Please contact your supervisor if you have any questions or require additional information.

ONTARIO TELEPHONE COMPANY

CPNI OPERATING GUIDELINES

Ontario Telephone Company (Company) adheres to the following guidelines:

General Company Policies

The Company uses, discloses, or permits access to CPNI to protect the rights or property of the carrier, or to protect users of those services and other carriers from fraudulent, abusive, or unlawful use of, or subscription to, such services.

The Company uses, discloses, or permits access to CPNI for the purpose of providing or marketing service offerings among the categories of service to which the customer already subscribes from the Company, without customer approval.

The Company shares CPNI only among the carrier's affiliated entities that provide a service offering to the customer. Except as noted herein, the Company does not share CPNI with its affiliates from which its customer does not take service.

The Company does not use, disclose, or permit access to CPNI to market to a customer service offerings that are within a category of service to which the subscriber does not already subscribe from the Company, unless the Company has customer approval to do so, except in accordance with exceptions described below that are consistent with 47 CFR § 64.2006(c), where such disclosure is related to inside wiring, maintenance, repairs and the marketing of adjunct-to-basic services.

The Company does not use, disclose or permit access to CPNI to identify or track customers that call competing service providers. For example, the Company does not use local service CPNI to track all customers that call local service competitors.

The Company uses, discloses, or permits access to CPNI, without customer approval in its provision of inside wiring installation, maintenance, and repair services.

The Company uses CPNI, without customer approval, to market our services formerly known as adjunct-to-basic services, such as, but not limited to, speed dialing, computer-provided directory assistance, call monitoring, call tracing, call blocking, call return, repeat dialing, call tracking, call waiting, caller I.D., call forwarding, and certain Centrex features.

Company Policy Governing the Approval Required for Use of Customer Proprietary Network Information.

The Company obtains approval through oral methods and we understand that the Company bears the burden of demonstrating that such oral approval has been given in compliance with the applicable FCC Rules.

The customer's approval or disapproval to use, disclose, or permit access to a customer's CPNI obtained by the Company remains in effect until the customer revokes or limits such approval or disapproval.

The Company maintains records of approval for at least one year or until the customer cancels service. This is accomplished by entering notations in the Customer Account Record as to the customer's approval decision regarding the use of their CPNI.

To date, the Company has not needed to seek customer-wide opt-in or opt-out approvals for any of our sales and marketing activities. Approvals, when necessary, are obtained orally from the customer and documented in our Customer Record System.

Joint Venture/Contractor Safeguards: The Company discloses or provides access to CPNI to its joint venture partners or independent contractors only upon the execution of confidentiality agreements with independent contractors or joint venture partners that comply with the following requirements. The confidentiality agreement shall:

- (i) Require that the independent contractor or joint venture partner use the CPNI only for the purpose of marketing or providing the communications-related services for which that CPNI has been provided;
- (ii) Disallow the independent contractor or joint venture partner from using, allowing access to, or disclosing the CPNI to any other party, unless required to make such disclosure under force of law; and
- (iii) Require that the independent contractor or joint venture partner have appropriate protections in place to ensure the ongoing confidentiality of consumers' CPNI.

Except for use and disclosure of CPNI that is permitted without customer approval under 47 CFR § 64.2005, or that is described above, or as otherwise provided in section 222 of the Communications Act of 1934, as amended, the Company uses, discloses, or permits access to its customer's individually identifiable CPNI subject to opt-in approval only.

Company Policies Regarding the Notice Required for Use of Customer Proprietary Network Information.

The Company provides individual notice to customers when soliciting approval to use, disclose, or permit access to customers' CPNI.

The customer notification provides sufficient information to enable the customer to make an informed decision as to whether to permit a carrier to use, disclose, or permit access to, the customer's CPNI.

The Company ensures that the notification is comprehensible and must not be misleading.

The Company may from time-to-time state in the notification that the customer's approval to use CPNI may enhance the carrier's ability to offer products and services tailored to the customer's needs.

The Company does not include in the notification any statement attempting to encourage a customer to freeze third-party access to CPNI.

The Company ensures that any solicitation for approval is proximate to the notification of a customer's CPNI rights.

The Company provides notification to obtain opt-in approval through oral methods.

The Company uses oral notice to obtain limited, one-time use of CPNI for inbound and outbound customer telephone contacts for the duration of the call. The contents of any such notification comply with the CPNI standards except that the Company may omit any of the following notice provisions if not relevant to the limited use for which the carrier seeks CPNI: The Company does not advise customers if they have opted-out previously, since no action is needed to maintain the opt-out election; the Company does not advise customers that they may share CPNI with their affiliates or third parties and need not name those entities, if the limited CPNI usage will not result in use by, or disclosure to, an affiliate or third party; the Company does not disclose the means by which a customer can deny or withdraw future access to CPNI, and the Company explains to customers that the scope of the approval that the Company seeks is limited to one-time use; and; the Company omits disclosure of the precise steps a customer must take in order to grant or deny access to CPNI, since the Company communicates clearly that the customer can deny access to his CPNI for the call.

Company Policies Regarding Safeguards for Use of Customer Proprietary Network Information.

The Company has implemented a system by which the status of a customer's CPNI approval can be clearly established prior to the use of CPNI.

The Company trains its personnel as to when they are and are not authorized to use CPNI, and the Company has an express disciplinary process in place.

The Company maintains records and documents of its own and, as may exist, its affiliates' sales and marketing campaigns that use its customers' CPNI. The records and documents provide the ability to obtain a description of each campaign, the specific CPNI that was used in the campaign, and what products and services were offered as a part of the campaign. The Company retains the record for a minimum of one year.

The Company will implement a formal supervisory review process regarding its compliance with applicable FCC rules for outbound marketing situations. Currently, the Company only utilizes trained Company personnel for the purpose of outbound marketing programs. These Customer Services Reps (CSR) are trained on the proper use of CPNI prior to outbound sales initiatives. Additionally, the close proximity of the CSR supervisor to those making outbound sales calls provides sufficient oversight of CPNI compliance. Sales personnel obtain supervisory approval of any proposed outbound marketing request for customer approval.

To the extent that the Company ever utilizes the opt-out CPNI approval approach, the Company will provide written notice within five business days to the FCC of any instance where the opt-out mechanisms do not work properly, to such a degree that consumers' inability to opt-out is more than an anomaly. The notice will be in the form of a letter, and will include the Company's name, a description of the opt-out mechanism(s) used, the problem(s) experienced, the remedy proposed and when it will be/was implemented, whether the relevant state commission(s) has been notified and whether it has taken any action, a copy of the notice provided to customers, and contact information. This notice will be submitted even if the carrier offers other methods by which consumers may opt-out.
